*Use the on-line colorizer to design your custom kite. Write the color names as they appear in the spaces provided. Use only the color names that appear on our website. Any other color name may cause your custom kite not to be made.*

*The colors represented in the on-line colorizer depict available fabric colors. The actual fabric color may be different than what is shown. Sky Burner Kites takes no responsibility if the color you pick does not match the actual fabric color.*

*Although the colorizer allows for different colors for each panel, we recommend designing your kite so that the left and right side colors match.*
